

## REFLECTIVE BUMP CAP MODEL NO. H6

The Reflective Bump Cap is a great option for safeguarding your head against cuts, small impacts, and bruises in workplaces that don't mandate the use of certified safety helmets. It has reflective features for increased visibility in low-light environments, providing an extra level of safety. It's particularly suitable for industries like automotive, pest control, meatpacking, food processing, and assembly facilities. The cap is specifically designed to provide protection while maintaining comfort and flexibility

### SPECIFICATION
