

### RECHARGEABLE LED HEADLAMP MODEL NO. HA2

The rechargeable LED headlamp is a durable and lightweight lighting solution for outdoor activities and low-light work environments. Its bright LED light source has adjustable brightness levels and modes, with a beam distance ranging from 50 to 150 meters. The headlamp is water-resistant, has an adjustable strap, and comes with a rechargeable battery and USB cable for easy charging. With a battery life of up to 4-6 hours and variable modes, it's a versatile and reliable tool for any outdoor enthusiast or worker.
