

ORANGE MESH

DESCRIPTION:

Safety mesh is made from high-quality material that is designed to provide protection and safety in various settings. This safety mesh is commonly used in construction sites to create temporary fencing, scaffold netting, and debris containment systems. It is also used in agricultural settings to protect crops from animals or to create animal enclosures. In addition, it can be used in industrial settings to create barriers around machinery or dangerous areas to prevent unauthorized access.

MODEL: TS954

Applications:

- Construction sites • Road works
- Hazardous areas • Restricted areas
- Crowd control

MODEL NO	TS954
MATERIAL	PE
SIZE	1 MTR X 50 YDS
COLOR	ORANGE
ORIGIN	CHINA
