

# YELLOW SOLAR LIGHT

## DESCRIPTION

Solar LED Yellow Flashing Traffic lights are used for safety warning. So they are mainly installed in those dangerous roads or bridges with a potential safety hazard, such as a ramp, school gates, diverted traffic, road corners, pedestrian ways, etc. Also, those mountain roads with thick fog or low visibility are in very need of them to remind the drivers to be careful.

- Solar cell powered - not dependent on the electrical grid.
- Battery backup - able to operate in cloudy/rainy weather.
- Transparent poly-carbonate optical lens – impact resistant.
- High intensity LED light source – low energy consumption.
- Highly durable UV resistant polycarbonate housing.
- Easy fixation system and waterproof wiring connectors.
