

## STEEL RETRACTABLE FENCE

### DESCRIPTION:

The Aluminum expendable barrier is a versatile and durable solution for managing crowd control, and safety at events, and other public areas. It is made from high-quality aluminum, this barrier is sturdy, light weight, and resistant to corrosion and wear. The barrier can be extended to 3 meters, providing ample coverage to create a clear and visible barrier. The unit is also equipped with wheels, making it easy to move and position the barrier where it is needed. In addition, this barrier features high-quality reflectors, which makes it highly visible, even in low-light conditions. The reflectors enhance safety by making the barrier more noticeable to pedestrians, motorists, and other people in the area.
